

SPEEDY USB CONNECTIVITY

All-in-one wireless solution

The Belkin N wireless USB adapter seamlessly connects your desktop or notebook computer to a wireless network. Based on the 802.11n draft, N Wireless enables multiple receivers and transmitters to send and receive data using Intelligent MIMO (Multiple Input Multiple Output) spatial multiplexing techniques, which greatly increase speed, coverage and reliability of the wireless network.

Thus, the N draft of wireless technology is defined for streaming high-definition videos, online

gaming and VoIP. The USB adapter provides great range and fast Internet access from the wireless router. The speed remains constant even while transferring heavy files. You won't notice the speed difference from the wired connection. Setting up these wireless accessories is easy.

All you need to do is to connect the device through the USB port and install the driver from the provided disc. Once completed, the wireless network is ready to use and priced at Rs 2,630 ■

CHARGING ON THE MOVE

Alternative power options for all

These days, a lot of features are incorporated into mobile phones. This means that the power consumed by these devices also increases. Many of us have been stuck in situations where the battery has drained out and we cannot charge our phones because we are on the move.

Well, ideaForge has introduced chargers to rev up your phones while on the go. The bike charger, mechanical charger, USB charger will charge your cellphones anywhere, anytime. With the mechanical charger all you need to do is simply rotate its handle. A minute's rotation gives about three minutes of talktime or about 30 minutes of standby time. Technically speaking low charging current gives a better battery life.

As for the bike charger, all users have to do is connect the two wires with the ignition cable that connects to the battery. The moment the ignition is switched on, charging begins and continues as long as

the bike keeps running. This is very handy when you don't have time to charge your mobile phone and need to speed off somewhere immediately. Coming soon is a magnetic pouch for your mobile that can be attached to a motorcycle's fuel tank. The ideaForge USB charger comes with multiple connectors that connects to almost all major brands. The bike charger is priced at Rs 450. The hand charger and USB charger are priced at Rs 450 Rs 350 respectively ■
